

How to Connect to The University of Findlay VPN - Off-Campus

You must install the VPN client before proceeding. To install the VPN client, click on the following link: [Installing VPN Software \(for Extranet\)](#).

1. Connect to your ISP (Cable, DSL, or Dial-up) and open the VPN client by double clicking the icon.

2. In the “Connection” drop down box set it to **Extranet**. Type your username and password in the fields labeled User Name and Password. This is the same username and password as you use on campus and to access E-mail.

3. Click connect and it will connect to the UF network. You should see the VPN icon in the system tray down by the clock on your computer.

You have now connected to The University of Findlay VPN
